SUMMARY

A compassionate and dedicated Registered Nurse with extensive skills and professionalism in nursing roles and providing exceptional care. Aligns support and treatment programmes with best practices, and optimised patient management. Implements effective operational processes and frameworks to improve quality standards across diverse portfolios. Collaborates with internal and external partners to negotiate positive outcomes aligned with key objectives.

EXPERIENCE

NURSING OFFICER INTERN

Nyahururu County Teaching and Referral Hospital
2023-2024

- Providing exceptional care to patients through assessing, planning, implementing and evaluation of patient's outcomes.
- Performed routine nursing care activities to ensure patients' basic needs are met adequately.
- Provided health education and counselling to patients and the community to promote health.
- Advocated for patient needs, rights, and preferences ensuring a patient-centred approach.
- Proper documentation, maintaining proper records, confidentiality and handing over between shifts to ensure continuity of quality patient care.
- Collaborated with interdisciplinary healthcare teams to coordinate the delivery of comprehensive care.
- Kept and updated medical records by operating health management systems to capture and retain patient information.
- Established safe and hygienic working environments by developing and implementing nursing health and safety, risk management and operational policies.
- Participated in quality improvement initiatives and ensured adherence to established standards, policies and procedures.
- Facilitated prompt patient admissions and initiated discharge plans.
- Responded to emergencies promptly as they arose.
- Provided appropriate healthcare services including integrated management of childhood illness, family planning services, PMTCT, ANC and safe deliveries.
