

PORTFOLIO

Mission Statement

To improve the socio-economical welfare through the use of innovative and sustainable solutions to realize an empowered, just and equitable society.

Vision Statement

To foster a just, innovative, economically efficient and sustainable society.

Core Values

Innovation
Teamwork
Integrity
Commitment

Core Objectives

1. **Climate Mitigation Solutions:** Implementing practical and effective strategies to combat climate change and its impact on vulnerable communities.
2. **Empowering Marginalized Groups:** Co-creating for women, youth and persons with disabilities and sustainable development.
3. **Gender Equality and Social Equity:** Advocating for and incorporating gender-sensitive approaches in all climate-related initiatives, fostering inclusivity and fairness.
4. **Community Engagement:** Engaging with local communities to identify their unique needs and co-create solutions that cater to their specific challenges and aspirations.
5. **Awareness and Education:** Raising awareness and climate change, its consequences, and the importance of collective action through educational campaigns and capacity-building programs.

Achievements and Impacts

1. Successfully launched and implemented community-based climate mitigation projects, leading to measurable increase in decarbonization that include:
 - I. Planting of more than two thousand trees at Alliance High School in partnership with Global Peace Foundation (10/06/2023)

2. Planting of fruity trees in General Kago Primary (2021 and 2022)

3. Empowered over 800 women and youth, providing them with skills and resources to actively participate in environmental conservation and sustainable livelihoods.

3. Organized workshops and training sessions, reaching out to thousands of individuals, and fostering environmental awareness at the grassroots level.

4. Promoted gender equality in climate action, with women holding key leadership positions within the organization and actively participating in decision making processes.

5. Received recognition from local and international organization or our innovative approaches to climate change mitigation and community empowerment.

6. Conducted a youth empowerment workshop at Ubunifu Hub, equipping participants with the skills needed to engage actively in environmental conservation and contribute to efforts in mitigating climate change and building resilient communities.

7. In line with our commitment to sustainability and our dedication to driving green change in Kenya and beyond, Najimudu Empowerment Initiative actively participated in the Africa Climate Summit, held at KICC Nairobi, where we contributed to discussions on driving green growth and climate finance solutions for Africa and the world. Our engagement in this week-long event exemplifies our strategic focus on addressing critical global challenges and advancing impactful initiatives in accordance with our mission
